PRESS RELEASE LUCERNE STATUTORY MEASURES 26 JULY 2018

REQUEST FOR THE CONTINUATION AND INCREASE OF STATUTORY LEVIES ON LUCERNE SEED AND LUCERNE HAY IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT, ACT NO 47 OF 1996 (MAP ACT) AS AMENDED

INVITATION TO DIRECTLY AFFECTED GROUPS IN THE LUCERNE INDUSTRY TO COMMENT ON THE REQUEST FROM THE NATIONAL LUCERNE TRUST

The statutory levies on lucerne seed and lucerne hay, which were implemented for a period of four years, will lapse on 14 November 2018. These levies (VAT excluded) amount to: 80c per kg on clean seed; R4 per ton for lucerne hay not analysed by a Near Infrared Spectroscopy Instrument (NIR) Instrument; and R6 per ton for lucerne hay analysed by a NIR Instrument.

The National Agricultural Marketing Council (NAMC) received a request from the National Lucerne Trust (NLT), on behalf of directly affected groups in the lucerne industry, for the continuation and increase of statutory levies, to be promulgated as follows (VAT excluded):

	PROPOSED STATUTORY LEVY (VAT Excl)				
LUCERNE PRODUCTS AND PERSONS RESPONSIBLE FOR PAYING THE LEVY	15 Nov 2018 – 14 Nov 2022				
	Year 1	Year 2	Year 3	Year 4	
	(15 Nov 2018 –	(15 Nov 2019	(15 Nov 2020	(15 Nov 2021	
	14 Nov 2019)	– 14 Nov 2020)	– 14 Nov 2021)	– 14 Nov 2022)	
Cleaned lucerne seed produced for commercial					
purposes: Payable by the lucerne seed cleaner.	DO SE por ka	DO OO nor ka	DO OF nor kg	D1 00 por ka	
May be recovered from the person submitting	R0.85 per kg	R0.90 per kg	R0.95 per kg	R1.00 per kg	
the lucerne seed concerned for cleaning.					

Lucerne hay produced for commercial purposes				
not analysed by the NIR instrument: Payable				
by the first lucerne hay dealer dealing with such	R6.50 per ton	R7.00 per ton	R7.50 per ton	R8.00 per ton
lucerne hay. May be recovered from the person				
from whom such lucerne hay is obtained.				
Lucerne hay produced for commercial purposes				
analysed by the NIR instrument: Payable by the				
owner of the NIR instrument. May be recovered	R6.50 per ton	R7.00 per ton	R7.50 per ton	R8.00 per ton
from the person submitting such lucerne hay for				
analysis.				

The request includes that the NLT be responsible for the collection and for the administration functions associated with the proposed statutory levies. Approximately 70% of levy income will be spent on functions such as Research and Development, Information and Technology Transfer, Quality Control and Certification Systems, not more than 10% on administration and at least 20% of total levy income on transformation.

The NLT is committed in developing the long-term sustainability and profitability, as well as the local and international competitiveness of the lucerne industry of South Africa. The estimated income from the proposed levies is between R1.77 million (for 2015/16) and R2.44 million (2016/17) per annum.

The proposed statutory levies will be used to fund, support and coordinate:

- Research and Development to ensure the continuous improvement and innovation with regard to lucerne seed (National Lucerne Evaluation Programme, cultivar development) and lucerne hay (development of the National Lucerne Hay Grading and Quality Scheme);
- Information and Technology Transfer by means of gathering, processing and compiling relevant information, and disseminating the knowledge capital obtained, to ensure that continuous, timeous, and accurate market and product information is available to all industry role players in the South African lucerne value chain;
- Quality Control and Certification Systems to ensure the maintenance of the lucerne seed cleaning, grading and/or classification standards and services, as well as the maintenance and further development of the National Lucerne Hay Grading and Quality Scheme:
- Transformation of previously disadvantaged individuals to ensure the development of emerging farmers to grow and produce commercially in a sustainable way and to extend

their access to marketing opportunities with particular emphasis on enterprise- and

skills-development programmes; and

Close liaison between national, provisional and local government bodies; and local

and international role players on industry related issues (imports, exports opportunities.

varietal listing and trials) to ensure the overall sustainability of the lucerne industry of

South Africa.

As the proposed statutory levies requested by the NLT are consistent with the objectives of

the Marketing of Agricultural Products Act, the NAMC will investigate the possible

implementation of the relevant statutory levies and make recommendations to the Minister of

Agriculture, Forestry and Fisheries.

Directly affected groups in the lucerne industry are kindly requested to submit any comments

or objections with regard to the proposed statutory levies to the NAMC in writing (fax 012

341 1911 or e-mail to lizettem@namc.co.za), on or before 10 August 2018, to enable the

Council to formulate its recommendation to the Minister in this regard.
